

# GOING SOLAR?

## GET SMART BEFORE YOU START

WITH A FREE, ON-SITE SOLAR ASSESSMENT

Installing a solar system is one of the best investments you can make in your home. But with so many factors involved, it's important to get the best advice up-front.

Many solar companies are happy to give you a quote based on a satellite image of your home. But Solahart always starts with a free, on-site solar assessment.

This face-to-face meeting helps us better understand your objectives, your household energy requirements, your roof-size and your home's orientation. This means we can provide you with a bespoke solution for your home and budget.

## IT PAYS TO BOOK A SOLAHART SOLAR ASSESSMENT WE DON'T JUST LOOK AT YOUR HOME ONLINE **WE VISIT YOU ON-SITE**

Our solar assessors are fully trained and accredited by Solahart and follow strict health and safety protocols. Here's what they'll do during your free in-home assessment:

- ✔ View your home's orientation, roof-space, and any potential shading issues.
- ✔ Review your current and future energy needs.
- ✔ Discuss your budget and saving goals.
- ✔ Share latest market news, future renewable energy trends, and Solahart's latest renewable energy solutions.
- ✔ Review optimum panel locations and product options to ensure maximum solar return.
- ✔ Use our award-winning, live Solahart Solar Assessment App, which includes our proprietary Savings Estimator, to demonstrate the financial, energy and environmental savings you could make.
- ✔ Explain our Solahart Australian warranties to give you extra peace of mind.
- ✔ Discuss our installation process and our post-installation customer satisfaction review.
- ✔ Address any questions you have and leave you with a detailed quote.
